Re: IntraLATA Toll Dialing Parity

TN REGULATORY AUTHORITY

Mr. Waddell:

99-00360

JR

Per your letter dated April 29, 1999, enclosed please find a copy of the P.V. Tel of Tn. LLC IntraLATA Toll Dialing Parity Plan. Attached to this plan you will find our check for the \$25.00 filing fee. We believe that the enclosed plan meets all FCC and TRA requirements.

Should you have any questions or require further information please feel free to contact me directly at (423)578-1961.

Sincerely,

  
Joseph T. Buck III NCE  
President

cc. H. Walker

**Intralata Toll  
Dialing Parity  
Plan**

99-00360

**P.V. Tel. of Tn. LLC  
May 12, 1999**

## **I. IntraLATA Environment**

P.V. Tel customers are currently provided IntraLATA dialing parity via P.V. Tel.'s resold service offerings from both BellSouth and Sprint-United. P.V. Tel. will implement IntraLATA dialing parity in each P.V. Tel local switch installed in Tennessee. This will provide each P.V. Tel customer with full 2-PIC (primary Interexchange Carrier) selectivity in parity with existing resale services.

## **II. Carrier Selection Procedures**

Utilizing a 2-PIC methodology, customers will be able to pre-subscribe to one telecommunications carrier for interLATA and presubscribe to the same or a different telecommunications carrier for intraLATA toll services.

P.V.Tel. employees who communicate with the public, accept customer orders and/or service customer accounts have been trained to explain the process and alternatives to customers and assist in the selection of both interLATA and intraLATA carriers.

## **III. Customer Education / Notification**

P.V. Tel. has already educated both our employees and our customers to the 2-PIC availability. All existing customers have been allowed to select separate carriers for interLATA and intraLATA services since P.V. Tel began offering service within the state of Tennessee. Based upon this no additional education is necessary. All new customers are educated upon placement of their order of all their alternatives and are assisted in making an educated decision.

## **IV. Access to Operator Services and Directory Assistance**

Access to Operator Services and Directory Assistance will continue to be available thru both the customer's local exchange carrier or their interLATA carrier. For Operator Services, customers dial "0" to reach their local exchange operator and "00" to reach their interLATA operator service. For Directory Assistance customers dial "1-411" inside P.V. Tel's local service territory and "1-NPA-555-1212" for accessing their interLATA carrier's Directory Service.

**V. List of Available IntraLATA Toll Dialing Parity Exchanges**

**See Attachment A**

**VI. Cost Recovery**

There will be no additional charges for the implementation of IntraLATA toll dialing parity within the P.V. Tel switching network. Costs charged by other LEC's which are passed on to P.V. Tel via TRA approved resale agreements will be passed on to customers on a pass-thru basis.

**VII. Conformation to FCC and TRA requirements**

P.V. Tel will comply with any and all FCC and TRA rules and regulations including those concerning to the provisioning of IntraLATA Toll Parity. P.V. Tel will also conform to any and all anti-slamming rules and regulations approved by both the FCC and the TRA.
